

Enhance your A/R process

Get paid more, faster by using Abella's innovative A/R software to provide patients with a superior experience to receiving statements and paying online.

A simple click to view balance

Patients receive custom branded eStatements via text and email and can easily set-up payment arrangements from their mobile device.

Patients pay quickly and easily

Patients have immediate access to pay off their balance or pick a monthly payment plan that works for them so you can get paid faster and more efficiently.

A big smile for everyone

Patients and practice are happy with a friendly and improved bill payment experience. Start putting Abella to work for you and your practice today!

Abella™
The Accounts Receivable Solution

Collect 30% more revenue

Save 70% on the cost to collect

The only A/R software that makes you more efficient, improves collections and strengthens patient loyalty.

According to recent studies

Patients expect a private and convenient method to paying their balance online	Reminder or "collection" phone calls can cause resentment toward your practice	Mailing statements from your office can be costly, ineffective and require multiple follow-ups

How it works

1. Your patient A/R is loaded into the Abella software
2. Patients receive a link to view/pay their eStatement via SMS and email
3. SMS and email follow-up that is frequent, friendly and consistent
4. Patients choose pay-in-full or a monthly payment right from their mobile device
